

AMENDED IN SENATE MAY 3, 2005  
AMENDED IN SENATE MARCH 31, 2005

**SENATE BILL**

**No. 615**

**Introduced by Senator Figueroa**  
**(Coauthor: Senator Ortiz)**

February 22, 2005

---

An act to amend Section 104200 of the Health and Safety Code, relating to cancer.

LEGISLATIVE COUNSEL'S DIGEST

SB 615, as amended, Figueroa. Cervical cancer.

Existing law requires the State Department of Health Services to conduct the Cervical Cancer Community Awareness Campaign. Existing law requires the campaign to provide awareness, assistance, and information regarding cervical cancer.

This bill would ~~require~~ *extend the scope of* the campaign to include *the human papillomavirus (HPV) including* provider education aimed at promoting the awareness of ~~human papillomavirus HPV~~ and its link to cervical cancer.

Existing law establishes the Cervical Cancer Fund in the State Treasury to be expended by the department, upon appropriation by the Legislature, for the campaign. Existing law provides that the campaign shall not be implemented unless and until funds are appropriated for that purpose in the annual Budget Act.

This bill would provide, instead, that the department shall conduct the Cervical Cancer Community Awareness Campaign only if voluntary contributions are received or funds are appropriated in the annual Budget Act to support its activities in conducting the campaign, and would make the continued implementation of the

campaign contingent upon the receipt of voluntary contributions or an appropriation in the annual Budget Act for that purpose.

This bill would require the department to report to the chairs and vice chairs of the health committees of both houses of the Legislature, on or before January 1, 2007, on the progress of the campaign.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. The Legislature finds and declares all of the  
2 following:

3 (a) Cervical cancer is highly preventable and is the only cancer  
4 with one known cause—the human papillomavirus (HPV).

5 (b) Even with this knowledge, the American Cancer Society  
6 estimates that in the United States 10,520 cases of invasive  
7 cervical cancer were diagnosed in 2004, and 3,900 women died  
8 of the disease. In 2004, an estimated 1,735 California women  
9 were diagnosed with invasive cervical cancer and 470 California  
10 women died from the disease.

11 (c) Approximately one-half of the women who are diagnosed  
12 with cervical cancer are between the ages of 35 and 55 years.

13 (d) Ethnic patterns of cervical cancer in the United States are  
14 quite different from those of any other cancer of the female  
15 reproductive system. The highest age-adjusted incidence rate  
16 occurs among Vietnamese women, at 43 incidents per 100,000  
17 women. An incidence rate of 15 incidents per 100,000 women or  
18 higher occurs among Alaska Native, Korean, and Hispanic  
19 women. Black women have the highest age-adjusted mortality  
20 rate from cervical cancer and are followed by Hispanic women.

21 (e) In California, 800,000 women 18 years of age and older  
22 who need to be routinely screened have never had a Pap test and  
23 most Californians have not heard of HPV or its association with  
24 cervical cancer.

25 (f) Direct annual medical costs for treating symptoms of HPV  
26 infection in the United States are estimated at \$1.6 billion, and  
27 the cost of cervical cancer screening programs (Pap smears) is \$5  
28 billion to \$6 billion every year.

29 (g) The Legislature commends the existing educational efforts  
30 of the State Department of Health Services and finds that the

1 Cervical Cancer Community Awareness Campaign should be  
2 expanded to address the link between human papillomavirus and  
3 cervical cancer.

4 SEC. 2. Section 104200 of the Health and Safety Code is  
5 amended to read:

6 104200. (a) Subject to subdivision (f), the department shall  
7 conduct the Cervical Cancer Community Awareness Campaign  
8 to do all of the following:

9 (1) To provide awareness, assistance, and information  
10 regarding cervical cancer *and the human papillomavirus (HPV)*.  
11 These efforts shall include provider education aimed at  
12 promoting the awareness of ~~human papillomavirus (HPV)~~ HPV  
13 and its link to cervical cancer. Information regarding prevention,  
14 early detection, options for testing, and treatment costs shall be  
15 included.

16 (2) To promote the availability of preventive treatment for  
17 cervical cancer for women in California.

18 (3) To perform other activities related to cervical cancer.

19 (b) (1) For purposes of the Cervical Cancer Community  
20 Awareness Campaign, the department shall establish a study of  
21 and research regarding cervical cancer.

22 (2) The study and research shall contain, but not be limited to,  
23 statistical information in order to target appropriate regions of the  
24 state with the Cervical Cancer Community Awareness  
25 Campaign. The statistical information shall include, but not be  
26 limited to, age, ethnicity, region, and socioeconomic status of the  
27 women in the state in relation to cervical cancer. The research  
28 shall provide studies of current treatment evolutions, possible  
29 cures, and the availability of preventive care for women in the  
30 state in relation to cervical cancer.

31 (c) To the extent feasible and appropriate, the Cervical Cancer  
32 Community Awareness Campaign shall be incorporated into  
33 existing cancer awareness programs operated by the department.

34 (d) On or before January 1, 2007, the department shall report  
35 to the chairs and vice chairs of the health committees of both  
36 houses of the Legislature on the progress of the campaign. The  
37 report shall do all of the following:

38 (1) Provide an overview of progress being made in fulfilling  
39 the duties of the Cervical Cancer Community Awareness  
40 Campaign.

1 (2) Recommend strategies or actions to reduce the occurrence  
2 of cervical cancer among, and the burden caused by cervical  
3 cancer on, women in the state.

4 (3) Review statistical and qualitative data on the prevalence  
5 and burden of cervical cancer *and HPV* in California.

6 (e) There is hereby established in the State Treasury the  
7 Cervical Cancer Fund to be expended by the State Department of  
8 Health Services, upon appropriation by the Legislature, solely for  
9 the Cervical Cancer Community Awareness Campaign.

10 (f) (1) The department shall conduct the Cervical Cancer  
11 Community Awareness Campaign only if voluntary contributions  
12 are received or funds are appropriated in the annual Budget Act  
13 to support its activities pursuant to this section. The continued  
14 implementation of this section shall be contingent upon the  
15 receipt of voluntary contributions or the appropriation of funds  
16 for that purpose in the annual Budget Act.

17 (2) Voluntary contributions received for purposes of this  
18 subdivision shall be deposited into the Cervical Cancer Fund.
